EXPERIENCE

Designit
Senior UX Designer
Oct 2025 – Present

Designit (internal)
designit.com redesign
Jul 2026 – Present

Leading Designit's global website redesign, picking up from the EU team's discovery and working with marketing in the US and creative directors across Europe. Hosting reviews and walkthroughs, owning the site IA and navigation, and creating the website updates for global town halls. Now setting up the design system and production build in Webflow, while supporting the lead designer on Designit's wider brand redesign.

Sydney Water, via Wipro
iBuy procurement
Jan 2026 – Mar 2026

Supported Wipro's RFP response for Sydney Water. Mapped **3** procurement paths through SAP end to end and built a before-and-after prototype of the iBuy journey.

With the lead UX designer, designed a future-state Intake-to-Purchase Order experience in **SAP Fiori**, tested for feasibility with SMEs.

Designit
UX Designer
Jan 2022 – Oct 2025

WooliesX
Me@Woolies
Aug 2023 – Oct 2025

An internal employee platform built on **Microsoft Power Apps**, bringing together **70+** tools for **130,000+** store team members across **1,000+** stores and fulfilment centres. Designed the UI across every feature, worked in agile squads and ran regular stakeholder workshops with product, operations, developers and store teams.

Design system: set up and maintained the Figma design system across **8** feature streams, using Woolworths CORE foundations on Material 3 components, and worked with developers to style Power Apps components to match.

Food Safety: led end-to-end design of digital compliance checks with business analysts and SMEs. Evaluated model-driven, canvas and custom build approaches with developers and advocated for a hybrid canvas app.

To Dos: designed task flows for store leaders and teams, wrote up list rules as options for the team to decide on, and supported listening sessions that led to reworking confusing button language.

EXPERIENCE

Air New Zealand
Airpoints member portal
Aug 2022 – May 2023

Designed the Airpoints member portal for Air New Zealand's **4.6 million+** loyalty members, built on the out-of-the-box iFly platform and aligned with Air New Zealand's Unison Design System. Mapped navigation across public visitors, non-members and members, and reviewed feasibility with the vendor and product team.

Origin Energy
Salesforce sales redesign
Jan 2022 – Mar 2022

Supported stakeholder interviews, journey mapping and concept testing for a redesign of the Salesforce workflows used by the Business Direct and Major Customer sales teams. Recommendations were projected to save **600+ hours** a week.

Midwinter
UX Designer
Nov 2020 – Dec 2021

Led design on major features of a financial advice platform, including Robo-Servicing, Bulk Reporting, Multi-Goal and Consent, and built its **Figma design system** from scratch.

Spitfire
Junior UX/UI Designer
May 2019 – Aug 2020

Redesigned a trading platform's order pad end to end and designed dashboards for traders, within compliance constraints. Joined as a UX/UI Design Intern.
